

Electrical Part for Forklifts

Forklift Electrical Parts - Lift trucks may be specifically labeled for use in hazardous sites. A marked lift truck denotes the design has met the least requirements of ANSI/UL 558 used for engine powered lift trucks or ANSI/UL 583 intended for electric trucks for the type of label placed.

The application for labels meant for lift lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Ask your local insurance carrier and Fire Marshall for further information about the approved uses of industrial powered trucks in your application.

If the specific forklift satisfies the outlined criteria, labels may be placed. A labeled lift truck will show the type of designation located on the nameplate and will have a properly corresponding label placed.
